® Sound Setting

The image shows the Windows Settings application and the Windows Sound Control Panel. The Windows Settings window is titled "Settings" and shows the "System > Sound" page. A yellow callout with the number "2" points to the "Sound" title. The "Sound" page has a "Microphone" section with a red circle next to "Microphone" and a grey circle next to "VoiceMeeter Aux Output". Below this is a "Volume" slider set to 61. The "Advanced" section has a "More sound settings" link, which is highlighted with a red box and a yellow callout with the number "3". A red arrow points from this link to the "Sound" Control Panel window. The "Sound" Control Panel window has a yellow callout with the number "4" pointing to the "Playback" tab. The "Playback" tab shows a list of audio devices: "Disconnected", "Headset", "AAA", "Speakers", "VoiceMeeter Aux Input", and "VoiceMeeter Input". The "VoiceMeeter Input" device is highlighted with a blue background. At the bottom of the Control Panel, there are buttons for "Configure", "Set Default", and "Properties". The "VoiceMeeter Input" device is also highlighted with a yellow callout with the number "1" pointing to its name. The Windows taskbar at the bottom shows the Start button, Search, Task View, and several pinned apps. The system tray on the right shows the volume icon, network icon, and the date and time "3:50 AM 11/29/2021".
